1. Full case outline (reference only)

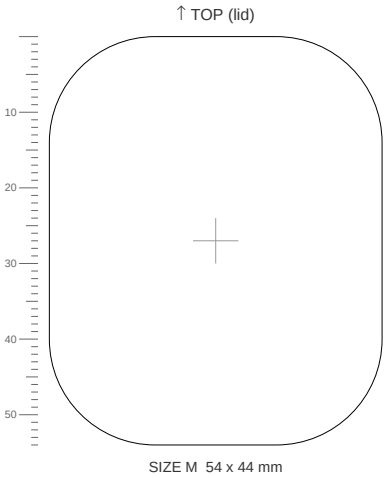

FULL 60 x 49.6

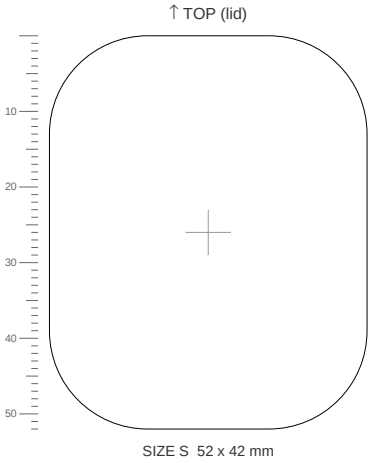

2. Cut these out and hold them on the case

SIZE L 56 x 46 mm

SIZE M 54 x 44 mm

SIZE S 52 x 42 mm

HOW TO PICK A SIZE

- Cut out L, M and S along the black line. Centre each on the FRONT face of the case.
- Pick the largest one whose edges stay on the flat-ish part of the face, about 1–2 mm before the edge starts curving round to the side. Paper/vinyl can't wrap a curved corner – it lifts.
- Check the LED / any button / logo you want to keep visible is not under it.

FIND THE LID SEAM

- With the test piece centred on the case, draw a pencil mark where the lid/base seam crosses it. Read that distance from the TOP of the piece (mm).
- On the design pages, every skin has a mm ruler on its left measured from its top. Cut the skin in two at that number, then trim 0.5 mm off both sides of the cut so there's a ~1 mm gap over the seam. Otherwise the lid won't open, or the skin tears.

Pages 2–4 = designs in size L, M, S. Print only the page you need.

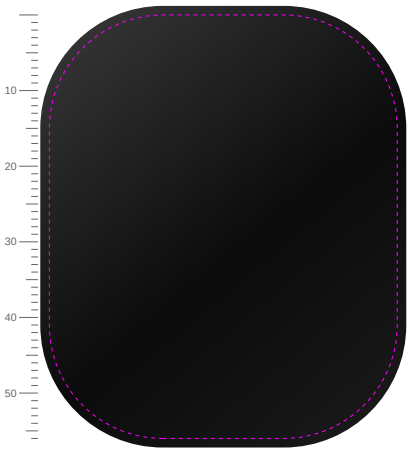

Pink dashed line = cut line. Colour runs 1.2 mm past it so you never get a white rim.
